## ALL-CONDITIONS COMFORT

### NEW FOR SPRING 2014: REI SLEEPING BAGS USE WATER-REPELLENT DOWN

All REI down bags for the backcountry now feature down that has been treated to elevate its water-repellency. REI testing verifies that this treated down offers comparable loft, compressibility, weight and breathability to untreated down. The treatment significantly increases water repellency, allowing these bags to be used in a broad range of conditions.
