

# Bear-y Fun Origami

Start with a square-shaped piece of paper. Color the back side a different color than the front. Then follow the instructions below to create your own bear!

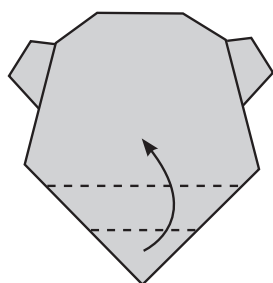

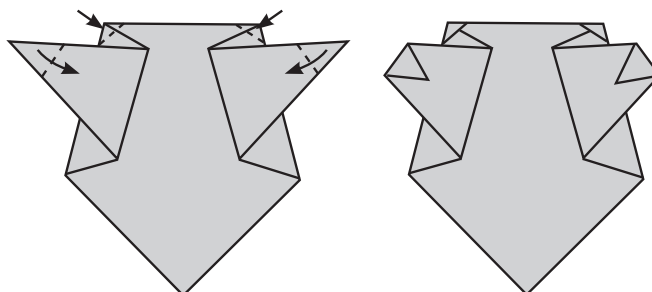

**1.**  
Fold the paper on the diagonal,  
bringing top corner to bottom.

**2.**  
Fold the left and right corners  
downward and inward.

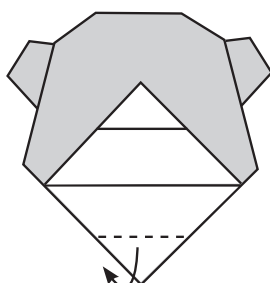

**3.**  
Fold the corners again,  
this time outward.

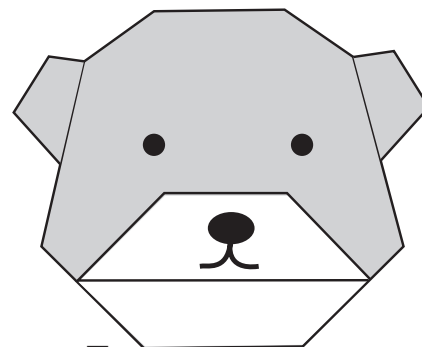

**4.**  
Fold those corners back in one last time.  
Now fold the very top 2 corners down, too.

**5.**  
Turn the bear over,  
then fold the top layer  
of the bottom corner up 2 times.

**6.**  
Fold the remaining  
bottom corner  
underneath.

**7.**  
Draw a face on your bear!
