

VOLUNTARY RECALL

Some of Our Sun Styles Missed the Mark on 50+ UPF

Certain styles of the **Capilene® Cool Daily** and the **Tropic Comfort** products do not meet the claimed 50+ UPF (Ultraviolet Protection Factor). The products tested in the range of 17-45 UPF, and they still offer solid UV protection.

However, if you'd like to make a return, we've made it easy to do that. You can scan the QR code to start or ask an employee for help.
