“

*think  
Togetherness*

As a new parent, it seems like you're always on the move. Chariot Carriers just happens to make it an easy, exciting process – right from the get go.

Thanks to Chariot's extensive line you can get a child carrier that will provide a comfy and secure ride from the day you're ready to take them for their first stroll, right up until that proud moment they've mastered a two-wheeler of their own!

”

**Ready for action as soon as you are.**

They're only young once. So make the most of this precious time together. Enjoy life to its fullest, and keep doing the things you love.

Whether it's a stroll with your newborn to the coffee shop to catch up with friends, a walk in the park, a scenic bike ride, or a more rigorous workout: Chariot Carriers will get you there with unprecedented comfort, safety and style.

Thoughtful carriers, conversion kits and accessories - to meet your every need.

No other line of child carriers and accessories gives you more flexibility or freedom to enjoy all that life has to offer - right from day one.

Please be sure to ride with extra care, and always wear helmets when cycling.

**As your child grows, so do your fitness options.**

The real magic in Chariot Carriers is the ability to easily transform your child carrier from one mode to another.

*Right on the spot. Without tools. It's just as easy as a click or a twist!*

Chariot's unique CTS Child Transport System technology represents the ultimate in flexibility for active families who enjoy participating in a variety of activities together.

No other system gives you this much freedom or flexibility. For example, with just one CTS Chariot you can do up to five activities for the ultimate in family flexibility. For example:

**Start out using it as a stroller >>**

**Move to brisk walks or light jogs >>**

**Consider a winter workout >>**

**Step out into nature >>**

**Finally, hit the road together >>**

**... And at any time switch back and forth. That's CTS versatility!**

think Chariot!

*Who says having kids will slow you down?*

Certainly not a Chariot owner. That's because Chariot Carriers are made for families who plan to grow more and more active as their young family grows up.

Although most of Chariot's products are multi-function CTS carriers, Chariot also designs and manufactures innovative dedicated carriers for cyclists and runners.

## COUGAR SX

*The Ultimate Child Carrier*

**pg. 7**

Looking for the best that Chariot has to offer? This is it! Introducing the Special Edition Cougar SX. It is fully loaded with an incredible complement of conversion kits and accessories; plus it has the most comfortable and versatile child compartment anywhere in the child carrier world. Only from Chariot Carriers.

## X-COUNTRY

*CTS Adventure Carrier Series*

**pg. 8 - 9**

The X-Country Series is all about maximum flexibility and performance. It's designed for year-round sports enthusiasts who want no limits on the activities they can enjoy with their children. Sleek, sexy and aerodynamic, the X-Country Series is perfect for parents who live active lifestyles.

## CLASSIC

*CTS Bicycle Trailer Series*

**pg. 10 - 11**

The Classic Series is designed for outdoor enthusiasts who place an emphasis on cycling functionality. That's why Classic models are sold as "ready-to-ride" bike trailers. But they also have the versatility to quickly convert to most other outdoor needs and activities with optional CTS conversion kits.

## CAVALIER

*Sport Stroller Series*

**pg. 12**

The Cavalier Series is for serious runners and avid walkers alike. They are both high-performance jogging strollers and easy-rolling all-terrain carriers. Cavaliers are built with many child and parent-friendly features, including an adjustable height handlebar, a padded reclining seat and a compact folding design.

## SIDECARRIER

*New – Bicycle SideCarrier*

**pg. 13**

Looking for something totally different? The SideCarrier is the world's newest way for avid, cycling enthusiasts to ride with their child. That's right: side by side. It's an old-world concept redesigned for the modern cycling family – with great features such as a lightweight aluminum frame and deluxe child compartment.

CHARIOT CONCEPT VEHICLE

Although you can't buy this piece of concept wizardry, you'll find many of its features and styling cues carried over to the Cougar SX. The Chariot WIZ is a one-off showpiece to explore innovative new features, and to highlight the design and engineering capabilities of Chariot Carriers.

Disk brakes

Ultra-Comfortable

Independent Suspension

**Chariot... pushing the envelope, and once again raising the bar.**

The Wiz integrates revolutionary 4-wheel independent suspension and Magura™ dual rear wheel disk brakes.

It also incorporates an ultra-comfortable and stylized interior with the most sophisticated temperature controls found anywhere.

Plus for sporting performance, the integrated display on the handlebar console will track your fitness progress.

# X-COUNTRY

CTS Adventure Carrier Series

## THE X-COUNTRY SERIES IS ALL ABOUT MAXIMUM FREEDOM AND CHOICE.

Choose exactly which sports and activities you want to do. It's up to you, because X-Country carriers are sold as a base CTS Ready Chassis. You then get to choose which of the 5 Conversion Kits best meet your needs and activities.

Both the Cheetah and Cougar offer the choice of 1 child and 2 child models and a selection of two colours per model. Your possibilities are endless!

The CTS Ready Chassis includes the Protected Child Compartment, rear wheels, 2-in-1 weather cover, handlebar, rear storage bag and parking brake.

Thus the purchase of at least one CTS conversion kit is needed for initial functionality.

Customer comments, owners manuals, fitness tips:

[www.chariotcarriers.com](http://www.chariotcarriers.com)

## → Cheetah 1 & 2

The sleek and nimble Cheetah has full CTS versatility at the lowest price, yet still has plenty of unbeatable features to ensure your family adventures are unforgettable. Start with just the CTS Conversion Kit you want, add more as you need them, or get them all. Now that's versatility!

Cheetah 2 :// for up to 2 children  
shown in royal/red/silver, also available in gold/grey/silver

Cheetah 1 :// for 1 child  
shown in gold/grey/silver, also available in royal/red/silver

## → Cougar 1 & 2

If you're looking for the top-of-the-line, look no further. The Cougar has all the innovations that sets Chariot apart. From unmatched child comfort, to the responsive CAS Chariot Adjustable Suspension, the Cougar is the best in its class. In fact, it's the best in the whole school!

Cougar 2 :// for up to 2 children

- Additional 3M™ Scotchlite™ Reflective Material

# CLASSIC

CTS Bicycle Trailer Series

THE CLASSIC SERIES IS DESIGNED FOR OUTDOOR ENTHUSIASTS WHO PLACE AN EMPHASIS ON CYCLING.

When it comes to sporting child carriers, bike trailers are among the most popular with parents. That's why Chariot's Classic Series are ready to ride as bike trailers.

With the Cabriolet and Corsaire, you can expand their functionality by adding CTS conversion kits. The Classic Series features an extra large child compartment and plentiful storage space, yet is still well suited for recreational runners. The look is classic, but the carriers are uncompromisingly cutting edge!

The CTS Bicycle Trailer includes the CTS Cycling Kit, Protected Child Compartment, rear wheels, and weather cover (integrated or 2-in-1).

Chariot tales, contests, product feedback, company info:

 [www.chariotcarriers.com](http://www.chariotcarriers.com)

## → Caddie

Caddie Walking Kit

The Caddie is just right for most families looking for an economical high quality bike trailer that can become an easy turning double stroller. If that's your family's route to fun together, then the Caddie is just for you!

**Caddie** :// for up to 2 children comes in royal/silver

## → Cabriolet

Jogging CTS Kit

Strolling CTS Kit

Hiking CTS Kit

The Cabriolet adds CTS versatility and lots of great features to a classic bike trailer design. With sleek lines, super comfy seat and harness, adaptable weather protection and plenty of space, the Cabriolet is a 2-wheeled wonder designed to satisfy your active lifestyle!

**Cabriolet** :// for up to 2 children comes in royal/red/silver

## → Corsaire

Jogging CTS Kit

Strolling CTS Kit

Hiking CTS Kit

The Corsaire is the top-of-the line in the Classic series with great features such as CPS Chariot Polymer Suspension, large side air vents and possibly the most luxurious seat design available. The wheels offer a traditional spoked look, and are light-weight and durable. Look closely, the Corsaire is unparalleled!

**Corsaire** :// for up to 2 children comes in red/navy/yellow

- Rear bug mesh
- Additional 3M™ Scotchlite™ Reflective Material

# CAVALIER

Sport Stroller Series

THE CAVALIER IS FOR THOSE WHO WANT A CARRIER DEDICATED TO WALKING OR RUNNING.

It runs like the wind, walks almost effortlessly, and folds to fit in small trunks. If you want a high-tech, great looking stroller for walking and running, or already have a bike trailer, the Cavalier is just for you! The Cavalier is a Chariot sport-specific design, thus it does not convert.

### Key Cavalier Features:

- Advanced, lightweight, rigid anodized aluminum frame with CBD™ CableBeamDesign™
- Widest single child seat available, and ready for Chariot's Baby Supporter accessory
- Innovative ezFold™ design for compact storage and transportability
- Chariot ergonomic HeightRight™ handlebars – with a stiff 'no-flex' design
- Top quality 16" wheels for lightweight, a smooth ride and low rolling resistance
- Easy push-button-release rear axles with cartridge bearings
- Padded deluxe shoulder harness(es)
- Caliper running brake plus foot-activated dual-rear-wheel parking brake
- Chariot StraightTrack™ adjust system ensures perfect wheel alignment
- 3M™ Scotchlite™ Reflective Material for increased visibility
- Durable, water resistant 600 denier polyester fabric
- Padded reclining seat with wicking mesh seat bottom
- No tools required for assembly
- Numerous product enhancing accessories available
- **Plus: Limited Lifetime Warranty**

**Cavalier 2** :// for up to 2 children comes in royal/silver/grey

**Cavalier 1** :// for 1 child comes in royal/silver/grey

# SIDECARRIER

## A TRAILER THAT YOU AND YOUR CHILD CAN SEE EYE TO EYE ON.

The patented SideCarrier is a unique new product that lives up to your cycling performance expectations. Lightweight. Responsive. The aluminum SideCarrier allows conversation, easier parenting, and natural bike lean. It mounts to the right side of bikes with a simple-to-use, quick-to-install coupling system. Once installed, you can add or remove your SideCarrier in seconds! Compatible with most bicycles, except most full suspension mountain bikes.

### Key SideCarrier Features:

- Very stable with extra-low center of gravity
- Bottom bracket QR coupling
- Lightweight aluminum frame
- Enclosed single child compartment
- Quick folding design for compact storage and transportability
- Padded deluxe shoulder harness
- Mesh upper seat for wind flow-through
- Tinted side windows for additional UV protection
- Top quality 20" stainless spoked aluminum wheel
- Easy push-button-release rear axles with cartridge bearings
- 2-in-1 weather cover
- Extra rear storage bag
- 3M™ Scotchlite™ Reflective Material for increased visibility
- Durable, water resistant 600 denier polyester fabric
- Manageable width of 27.5 inches – from outside of carrier tire to bicycle center line
- **Plus: Limited Lifetime Warranty**

SideCarrier // for 1 child  
comes in yellow/silver/navy

# CHARIOT ACCESSORIES

From water bottles to rain covers, Chariot has the accessory to make your ride enjoyable for both you and your kids.

## 1. Classic Cargo Conversion Kit – New!

Quickly and affordably turn your Classic model Chariot into a full-sized cargo carrier. The water-resistant cover with a rear entrance for quick access to your cargo is compatible with Caddies, Cabriolets and Corsaires. A tough reinforced floor insert improves loading under heavy use and supplies cargo anchoring options.

## 2. Hydration Kit

Comes with 2 bottles and frame mounting units. One for the 'engine' and one for the passenger. No tools required.

## 3. Backpack Set

Stylish, durable daypacks that look just like your Chariot. One for you and a smaller version for your child.

## 4. Storage Covers

A fabric cover to protect your Chariot while being stored inside or outside. Available in two sizes for one and two child carriers.

## 5. Travel Bags

Protect your Chariot in these soft-case bags. Also great for storing your folded Chariot when it's not in use. Includes two wheel bags to help keep the carrier clean.

## 6. All-Season Bunting Bag

This over-sized, interchangeable dual-layer bag zips up with one or two layers for cooler weather. In warmer conditions the front panels zip off, turning it into a comfy fleece seat liner, all-the-while allowing full use of the 5-point seatbelts.

## 7. Rain Covers

Water-proof cover for days with heavy rain conditions. Chariot offers these additional plastic rain covers for each of its models.

## 8. Axle-Mount ez-Hitch

The ez-Hitch™ components for a 2nd bike. It's the alloy cup and long QR skewer to quickly move your Chariot from one bike to another. Highly recommended.

## 9. Jogging Brake Kit

For use in jogging mode on CTS carriers, this QR brake provides additional stopping power, controlled from the handlebar mounted lever.

## 10. X-Country Cargo Racks

The XC cargo rack adds ultra-convenient supplemental storage within easy reach. Adjustable strap helps secure cargo. Available in two sizes. Only compatible with Cheetahs and Cougars.

## 11. Baby Supporter

For help sitting upright, and extra comfort during naps. Adjusts for a growing child and allows for full use of 5-point seatbelts. Head support removes for helmet use. See FAQ, Pg. 16.

## 12. Infant Sling

Additional lateral support provides maximum comfort and stability for your infant. Leaves plenty of room for a second older child in two seat carriers. Attaches firmly to 2003 and newer Chariots with exceptions of the Caddie, Cavalier and SideCarrier. Note: Not for cycling use. See FAQ, Pg.16.

For the latest in what's "new" at Chariot:

[www.chariotcarriers.com](http://www.chariotcarriers.com)

**Chariot's revolutionary CTS™ technology:**

*The freedom to change!  
Here is how it works:*

**CTS: CHILD TRANSPORT SYSTEM**

First, choose a X-Country CTS Ready Chassis and at least 2 kits or a Classic CTS Bicycle Trailer and one more kit. Swapping is ultra-simple and fast with ezClick™, found exclusively on Chariot's jogging and cycling arms, and Chariot's VersaWings™.

And no tools are required!

**Uncommon sense**

Whether you are a fitness family aiming to do 3+ activities a day, a family aspiring to use human-powered transportation, or if you simply don't want the storage hassles of multiple carriers, Chariot CTS is the only way to go.

**CTS Snapshot**

You can do two or more activities while your child naps! For example, imagine trying to move a sleeping child from a jogger to bike trailer to go shopping after your morning run. Once at the store, click to separate your Chariot and bike, then flip the stroller wheels down and roll right in. Try that with three separate carriers!

**Q:** Chariot's CTS products are obviously great value given one carrier can do so much, but are CTS products as high performance as dedicated products?

**A:** Yes! Chariot products are designed to perform as well or better than single-use carriers.

*See detailed explanation, upper right.*

**1. CYCLING:**

The Classic or X-country series in cycling mode are ultra-high performance bike trailers. Look at all these cycling enhancing features you'll find only on Chariot's: innovative CAS or CPS suspension systems, patented axle-mount ezHitch™, ezFold™ systems reinforced seats, padded deluxe shoulder harnesses and ultra quick release 20" wheels.

See *Bicycling* 08/02, *MountainBike Action* 06/03

**2. HIKING:**

Chariot's hiking kits have no other products to compare to. How else can you enjoy long flat hikes while the kids bring along toys, sleep comfortably and bring along a huge, gourmet picnic? Plus, as an added benefit, much of your child's weight is taken off your shoulders.

See *Chariot Tales* Pg. 18

**3. SKIING:**

The XC Ski Kits use quality foam core Karhu™ cross-country skis, for your easy gliding over tracked or ungroomed trails, while your child is in the best climate protection available. Three position telescoping dual towbars ensure control and stability. Plus the skis and towbars quickly remove for easy packing.

See *XCskiworld.com* click 'child ski sleds'

**4. JOGGING:**

Our XC jogging strollers have a long, stable wheelbase, a low center of gravity, an aerodynamically styled profile, an enclosed or open child compartment, 20-inch rear wheels, a great kick-n-stride space, reversible height handlebars, and an optimal weight distribution. These are all details that experienced and casual runners appreciate.

See *Runner's World* 08/03

**5. STROLLING:**

Combining Chariot's large windows and protected child spaces, children have the option of watching the world go by or having an on-the-go mobile toy/play room. All with roughly the same footprint as typical strollers. And large wheels make life much easier over curbs, in playgrounds and rough urban sidewalks or paths.

See various *Pregnancy*, *ePregnancy* and *Fit Pregnancy* magazines

## FREQUENTLY ASKED QUESTIONS

See our website for many more.

**Q: At what age may I take my child in a Chariot?**

A: From about 1 month old, with the help of the optional Chariot Infant Sling or, from about 3 months old with the optional Chariot Baby Supporter, both starting with walking, and running can come later – depending on terrain, child development and your doctor's advice. You may use your Chariot from about 1 year, for cycling – with a properly fitted helmet, available at your bike store.

**Q: Until what age or weight of my child can I use a Chariot?**

A: Until about 4 years old, or as long as their head or helmet does not pass the upper frame, and as long as the weight limits of the Chariot are not exceeded: 75 lbs (or 100 lbs) for 1 (or 2) child Chariots. In sum, much longer than a regular stroller.

**Q: What is Chariot's helmet policy?**

A: Chariot insists on helmet use while trailering, which starts at about 1 year of age. Helmets are not needed, but recommended, while doing non-cycling activities, assuming the child is old enough to wear a properly fitted helmet, which comes at about 1 year of age. For example, newborns in the Infant Sling while walking do not require helmets.

**Q: Will I be able to get replacement parts for my Chariot in the future?**

A: Yes. As your Chariot will likely outlast your family, you can pass it on and they'll be able to get parts and service. As the limited lifetime warranty is to the original owner, we pride ourselves in stocking most conversion kits, parts, and even whole fabric bodies and weather cover for all Chariot models made since 1993. Just inquire about, and order these through your local Chariot retailer.

**Q: Why is the CTS Ready Chassis concept only on the X-Country Series?**

A: This is because the XC Series is a multi-use design that has 1 and 2 child versions. In sum, runners may run, strollers can stroll, and cyclists may ride, etc, by only purchasing kits and seating capacity for their exact needs. Please note the new Special Edition Cougar SX includes 3 Conversion Kits and only seats one, and the Classic Bicycle Trailers include the CTS Cycling Kit and all seat two children.

**Q: Why are there so many Chariot models?**

A: Firstly, child transportation is our company focus. Then, as parents ourselves, we fully understand the evolving and specific needs of different families. As managers of household budgets, we know that every purchase needs to be carefully evaluated, hence our standard and deluxe models. From our experience, only a variety of carriers, conversion kits and accessories can meet the demands of today's active families.

## MORE ABOUT CHARIOT

Learn more about Chariot Carriers the company.

### Think Focus

Chariot Carriers is one of the very few companies worldwide that dedicates itself exclusively to outdoor child transportation. We are guided by principles such as family togetherness, outdoor activities, health and fitness, balanced lifestyles, ultimate safety, and an ongoing commitment to making your family outings into unforgettable memories.

### Think Community

Chariot is a skilled and experienced team of approximately 100 proud, energetic employees. At Chariot, progressive human resource policies mean that every Chariot is made in an openly multi-cultural and multi-lingual environment whose common bond is making the best and safest products, anywhere in the world, for your family.

### Think International

Chariot leads in many marketplaces around the world, including countries in North America and in Europe, where parents have been choosing Chariot over other brands for more than a decade, citing quality, innovation attention to details and worldwide customer care. Discover the Chariot difference.

## SAFETY AND TESTING

When you purchase a Chariot Carrier, you're buying a product that has undergone years of internal and field testing – and retesting. Just some of the tests conducted on each Chariot model are: crash tests with the floor, hitch durability, roll-overs, and long-term durability on a very rough simulated road (see above).

In addition to complying with applicable safety standards, Chariot products must pass our own significantly more stringent internal standards. By integrating product design, testing and production under one roof, Chariot raises the bar in product safety and excellence. And, independent international test results with Chariot products have further verified this quality.

**ASTM** All Chariot trailers meet or exceed  
ASTM Standard F1975-02  
American Society for Testing and Materials

CTS Flash introduction and lots of great photos:

# CHARIOT ADVANTAGE

Learn what sets us apart.

## 2. INNOVATION:

As a verification of Chariot's ever widening lead in innovation; can you believe our design team have carefully orchestrated over 400 precision parts into every Cougar 2 Chassis? Only Chariot can do this and offer a limited lifetime warranty. It's Chariot's experience, openness to listen to customers, and the ongoing investment into product development that makes every Chariot the paramount of child carrier excellence.

## 3. PERFORMANCE:

Sporting performance is designed into all Chariot products, so that they are as good - or better - at improving your personal bests than 'dedicated or single-use' products. *See Pg. 15.* You'll only find lightweight yet rigid hand-made aluminum frames, aerodynamic profiles, and performance wheels on Chariot products. Take a test drive and compare, you'll quickly sense why Chariot is an industry leader.

## 4. CHILD COMFORT:

Spacious, ergonomic and contoured for growing children - from almost newborn right up to when they go to kindergarten, Chariot pampers its passengers with unmatched attention to detail with its interior designs. Touch the deluxe padded shoulder harnesses and padded seats; open the side air vents, and you'll begin to understand how Chariot goes furthest in child comfort.

## 5. CONVENIENCE:

Chariots feature thoughtful, practical touches only a parent can truly appreciate! Our patented ezFold™ design (*see above*) sets the new standard for folding quickness and ease. When you want to do another activity, switching with our ezClick™ system is fast and easy. And only Chariot offers so many storage options for you and your child.

## 1. SAFETY:

Your child's safety is key to every design and manufacturing decision at Chariot. Technical testing and customer feedback over more than a decade has given Chariot an industry leading edge towards making products that give you peace of mind. Plus you'll have the means to protect your child from everyday issues such as changing weather and sun. Other examples are generous use of 3M™ Scotchlite™ Reflective Materials and superior, engineered materials throughout.

## CUSTOMER COMMENTS

“

*We absolutely love our Chariot! It is used everyday. It allows us to still be extremely active with our young child.*

**Carmen and Jeff**

”

*When we came across the Chariot we knew it was the "ONE". We were absolutely amazed at all the little features. It was well worth the money to have such a versatile trailer. Our friends are so jealous of our awesome carrier.*

**Renee and Sam**

*One of the best purchases we ever made! We use it all the time.*

**Eric and Willene**

*Thank you for building such an awesome stroller, jogger, bike trailer, hiker and (XC ski) sleigh. It makes sense to have your kids warm while they enjoy the outdoors at the same time!!*

**Darren and Nicole**

*We were very impressed with the quality of materials used, as well as the engineering. Lots of thought put into the little details.*

**Aaron and Genie**

## CHARIOT TALES

True stories and real life adventures involving Chariot Carriers. One with a child and three with cargo only.

### Taming The Outback.

In 1999 David Adie ran across the vast, hot Australian outback with a Cabriolet and a Jogging Kit carrying over 45 kgs (100 lbs) including litres and litres of precious water. On his 5,200 km (3,200 mile) journey, he jogged about 50-60 km a day and took four months from his work as an educator. Other prior trips he has run with a Chariot: South-East Asia, The United Kingdom, running the long way from sea-to-sea and a few thousands kilometers jogging the length of the Japanese Islands.

### Quality father and daughter time.

Sandy Boyd, a 36-year-old former tri-athlete and stay-at-home Dad, has completed 4 full marathons with his daughter Sonje, 3.5 years old. When racing, Sonje likes taking in the energy, reading, and playing with her many toys. Their best race time was an amazing 3h45! Sandy and Sonje have bonded with their Chariot through more than 5000 km (3100 miles), as they simply love their time together. And Sonje will soon have a little Chariot partner!

### Stepping Up For The Children.

Starting in the summer of 2000, Jean Béliveau left Montreal, Canada heading south. His ten-year goal is to walk around the planet to promote "Peace and non-violence to the profit of the children of the world". Jean is still walking and plans to completely circumnavigate the world by foot, returning with 83,000 km (50,000 miles) on his ped-o-meter. Chariot is supporting his endeavor with a Cheetah 1 in jogging mode. Jean has finished North and South America, and at presstime, is in South Africa heading north.

### Who Needs A Rail Pass?

In 2000 a Dutch couple walked 84 days with their Cabriolet and Hiker Kit for 1,745 km (>1,000 miles) from The Netherlands to Rome, and then 724 km (450 miles) from San Sebastian to Santiago de Compostella, Spain. They carried a load of 30 kgs (66 lbs). As regular walkers of long pilgrimage trails, this weight was previously in backpacks, until they met a family traveling with a Chariot bike trailer. They liked the idea of the CTS conversion system so they bought their own Cabriolet with a Hiking Kit, as this duo perfectly matched their needs.
