

Portable LED Light LWS-OL-AR

INSTRUCTION MANUAL

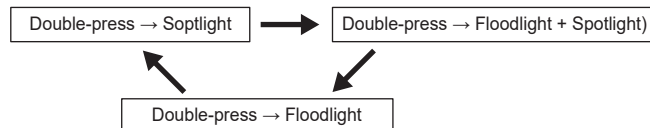

Button Function

- Long-press the power button to turn the light on/off.
Default mode when powered on: Mode 1 (Floodlight - Low brightness level).
- Short-press the power button to cycle through floodlight brightness levels.

- Double-press the power button to cycle through modes.

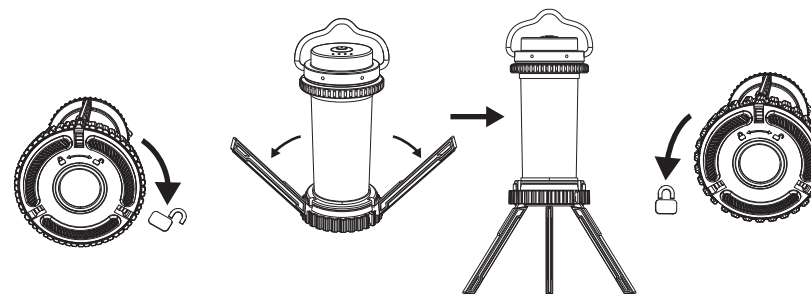

- When powered on, 4 LED indicators show the battery level.
If only one indicator flashes for about 20 seconds before the device turns off, it means the battery is dead and the device shuts down automatically.
- It is recommended to charge the device after turning it off.

Indicator Light

It supports charging via Type-C port. The LED indicator flashes during charging and stays on when fully charged.
