

BEE LINE
velo 2

It started with getting lost.

Beeline began when two friends,
Mark and Tom, got lost on a bike ride.
Frustrated with tech-heavy solutions,
they set out to make something better.

A simpler, clearer way to navigate.
A way to ride with your head up,
not your eyes down.

Ride with clarity.

Beeline Velo 2 is built for cyclists who want navigation that fits the ride. Whether you're exploring country lanes or heading out on a weekend loop, our clean, glanceable display and simple setup let you focus on what matters.

No clutter. Just the freedom to ride your way.

BEELINE
velo 2

Made for the ride, not just the route.

Beeline began with two friends getting lost on a bike ride. That moment shaped everything. Frustrated by tech only focused on performance, we set out to make something better. A way to ride with your head up, not buried in your phone. Clear. Calm. Made for two wheels.

We believe the best tech gets out of the way. That's why Velo 2 combines the power of your phone with a simple, glanceable interface designed for riding. No clutter. No distraction. Just navigation that guides you without stealing your focus, so you can enjoy the road ahead.

Navigation that guides, not distracts.

Plan it. Ride it. Track it.

Whether it's a familiar loop or somewhere you've never been, Velo 2 gives you the tools to ride with confidence.

Plan the route, stay on track and see how far you've come, all while keeping your focus on the ride.

Rides to Remember.

Create routes in the Beeline app with its clean, intuitive interface. Choose quiet, balanced or fast modes, or upload GPX files from friends or your favourite tools to bring you better routes, wherever you're heading.

Every journey is powered by Beeline Smart Routing, our rider-tested algorithm, to bring you better routes, wherever you're heading. And add even more functionality with a Beeline Plus premium subscription.

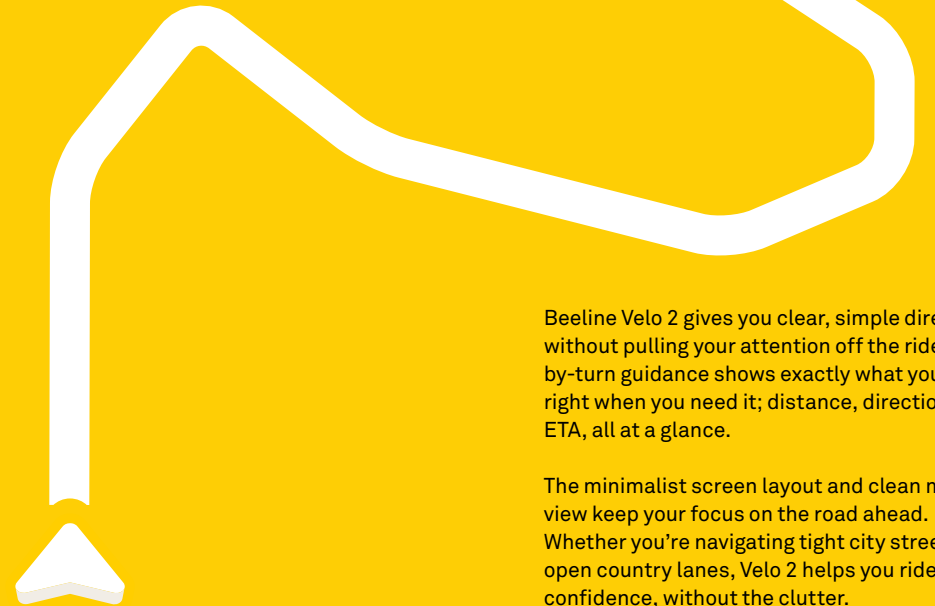

Your Ride, Refined.

Sync to Strava or Apple Health, or simply look back at the roads and paths you've covered. It's insight without the overload.

Track your rides as you go, with live stats on screen and full summaries in the app.

Distraction free, turn-by-turn navigation.

Beeline Velo 2 gives you clear, simple directions without pulling your attention off the ride. Turn-by-turn guidance shows exactly what you need, right when you need it; distance, direction and ETA, all at a glance.

The minimalist screen layout and clean map view keep your focus on the road ahead. Whether you're navigating tight city streets or open country lanes, Velo 2 helps you ride with confidence, without the clutter.

Ready for real rides.

Velo 2 is built for the conditions real riders face. With a tough, weather sealed design, it handles rain, dust and the bumps of everyday cycling with ease.

An 11-hour battery life and USB-C charging mean you can keep riding all day, wherever the journey takes you.

Life proof.

Form

meets

Function.

Velo 2 is designed to feel as good as it looks. Its compact circular shape keeps things simple, with every detail chosen for clarity and ease. The RockerTop™ interface makes it easy to scroll and switch views mid-ride, even with gloves.

It's design that works with you, not against you.

Quick fit. Clean looks.

Velo 2 comes ready to ride with a universal handlebar mount that's quick to fit and easy to adjust.

Want an even cleaner setup? Add the stem cap mount for a lower-profile look that blends into your bike. However you ride, your screen stays right where you need it.

Turn-by-Turn Navigation

Get clear directions at every junction. Stay on course with simple prompts that keep your eyes on the road.

Speedometer

Track your current speed with a clean, easy-to-read display. See how you're moving without the clutter.

Climb View

Preview upcoming elevation so you're never caught off guard. Know when to shift gears or push through.

Road Rating

Instantly rate roads good or bad to improve future Beeline routes. Be a part of the smart routing community.

ETA and Distance

Know how far you've got to go and when you'll get there. All at a glance, without breaking pace.

Ride Tracking

See your ride unfold as it happens. Track your route, progress and key stats in real time.

Compass Mode

Perfect for exploring. Just point toward your destination and ride your own route to get there.

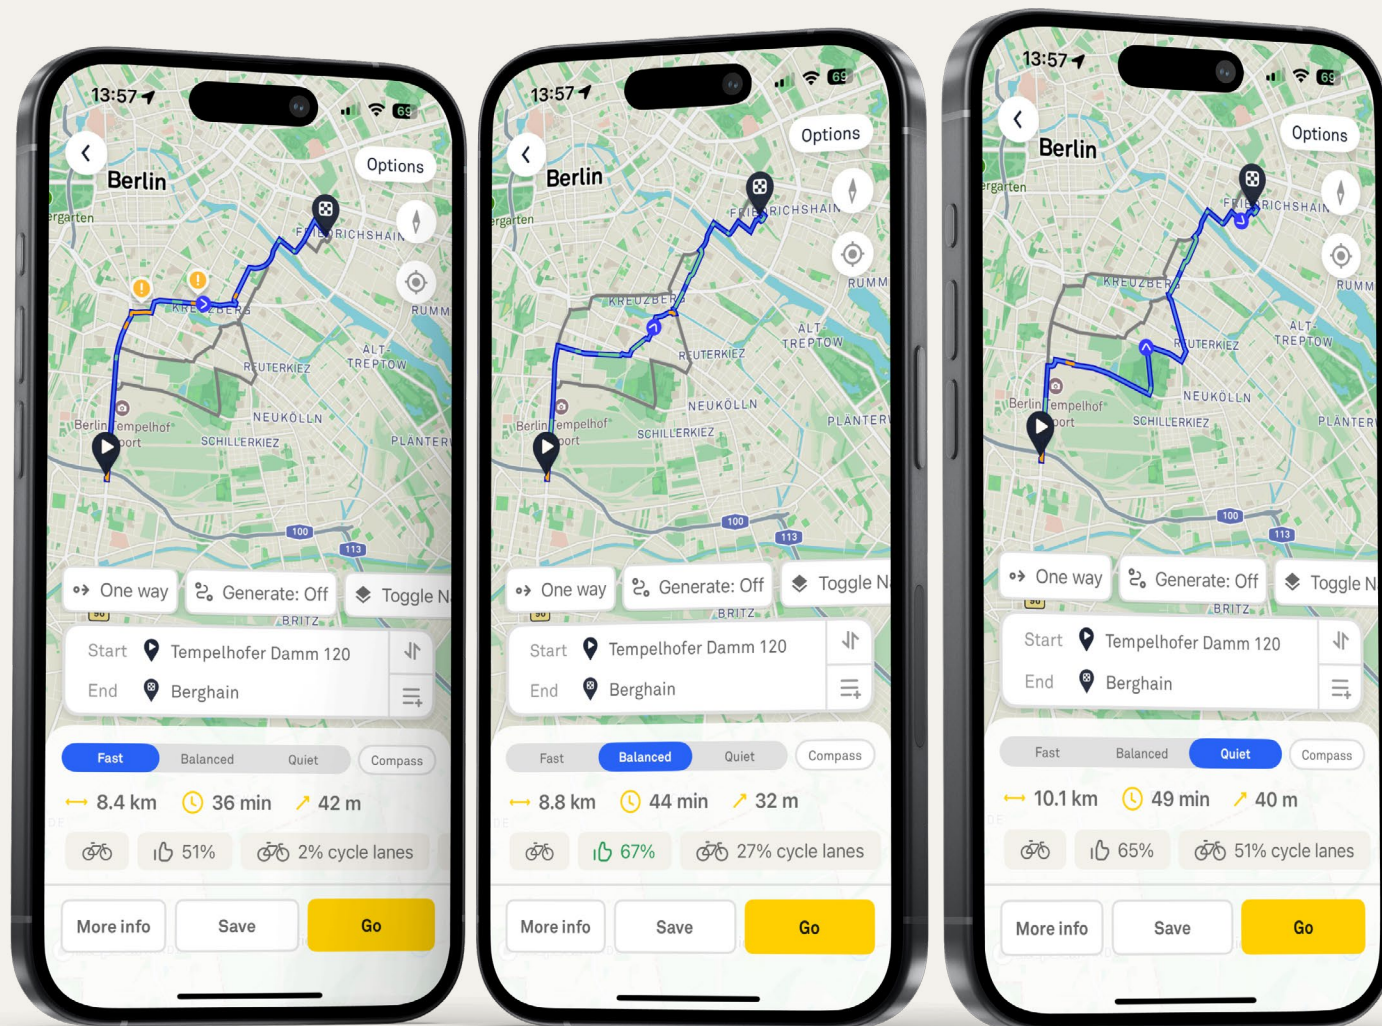

Ride Summary

At the end of your ride, review your stats. Sync to the app, Apple Health or Strava with a simple tap in the app.

Born smart. Perfected together.

Beeline's Smart Routing doesn't just find the shortest way from A to B. It finds the right one. Powered by thousands of rider ratings, our routing engine learns which routes feel safe, smooth and enjoyable.

With a simple press on the device, you can rate parts of your ride as you go, helping improve the experience for every rider. Whether you choose fast, balanced or quiet, Beeline always works to give you the best route for two wheels.

Smarter rides start in the app.

App Store

GET IT ON
Google Play

Whether it's a quick A to B or a full day out, planning your ride is simple in the Beeline app. Just tap the map or use the search bar to set your destination, then choose your route or switch to Compass Mode for more freedom.

You can add waypoints, shape your ride around the places you want to see, and trust Beeline to guide you clearly every step of the way. Unlike cluttered map interfaces, Beeline shows you a clean, glanceable route so you can stay focused on the ride ahead.

And with Strava and Komoot integrations, you can sync routes and rides effortlessly with the platforms you already love.

COMPATIBLE WITH
STRAVA

Beeline Plus

Go further with Beeline Plus

Generate loop routes to explore new roads, get real-time traffic updates, and enjoy 3D maps for planning epic curves and vistas.

The best part? These features are always evolving. Beeline Plus will continue to grow and develop for years to come, ensuring you're always getting the most out of your riding experience.

Track every twist and turn.

Track your journey in real-time. Velo 2 gives you instant access to speed, distance, and ride duration, keeping you informed with every mile. No need to look at your phone, Velo 2 has you covered.

Capture every detail of your ride with the Beeline app. Log your routes, share them with fellow riders, or import new adventures with easy GPX compatibility.

Little things. Big difference.

Protection Pack

Keep your Velo 2 protected and ready for adventure with this case and screen protector.

What's included:

- Silicone device case
- Anti-glare glass screen protector

Carry Case

This zipped, EVA hard case has a soft, padded interior with room for your Velo 2 and charging cable.

Comes with a handy carabiner clip for keeping your Velo 2 easily to hand on a bag or belt.

Stem Cap Mount

Integrate your Velo 2 seamlessly with your bike. Simply swap out your stem cap for this adapter and go.

Compatible with all standard 1 and 1/8 inch headset top caps, designed to replace a stem cap on a typical threadless headset*

What's included:

- Stem cap base
- Stem cap bolt
- Mount adapter insert

*Threadless headsets are commonly found on the vast majority of modern bicycles.

Minimal. Clean. Beautiful.

The Beeline app and Velo 2 work in perfect harmony, complementing each other to enhance your riding experience.

While many traditional GPS systems rely on outdated, clunky hardware, Velo 2 leverages the power of your smartphone's GPS, known for its accuracy and reliability.

This integration keeps Velo 2 compact, simple, and elegant. Your phone handles the heavy lifting, and Beeline delivers turn-by-turn directions with zero fuss.

By keeping your phone's screen off, using Beeline preserves your phone's battery so you know it's there for emergencies. It's a smart approach that provides cutting-edge navigation without compromise.
