Novara N-Fit—Bike Sizing Made Simple

The Right Fit Is Determined By a Rider's Height

People who have shopped for a bike understand how difficult it can be to know what size they need. It can change from one brand to the next, from mountain bikes to road bikes, from inches to centimeters. Rather than using the measurements of different bikes, and standover heights and clearances, Novara N-Fit uses one constant measurement: a rider's height. That helps determine what size bike is right. We think it will be as liberating as the universal fit system in bike helmets.

A Rider's N-Fit Size Never Changes

There's something to be said for consistency. If a rider is 5'6"–5'9", their N-Fit size is M. Whether they're a man or a woman. Whether they're shopping for a mountain bike, a cruiser or a serious road machine. Their height is all they need to know. The Novara design team has already crunched the numbers for them. We've tweaked frame geometries and top-tube clearances. Even the size of the components is factored in.

NOVARA	XS	S	M	L	XL
2010 N-Fit	5'0"–5'3"	5'3"–5'6"	5'6"–5'9"	5'9"–6'0"	6'0"–6'3"

N-Fit Takes Gender Into Account

All the calculations that go into our women's bike designs roll into N-Fit sizes for women. So they're not only getting the right-size bike; they're getting a bike that's totally dialed for women from top to bottom. One that's meticulously fitted for the feminine physique: the frame geometry, the right strategic component choices (such as shorter cranks and shorter stems).

N-Fit is Flexible

Because there's a small overlap in N-Fit sizing (for example, S is 5'3"–5'6"; M is 5'6"–5'9") someone who is 5'6" has two size options, depending on their riding style and their particular "human geometry," such as long or short legs.

COMFORT

JAUNT / JAUNT XX

Our newest Novara appeals to easy rollers. It's a fun option for those looking to get back into the cycling game. Best Foot Forward design lets riders put their feet down yet pedal with some pop.

WOMEN'S JAUNT XX OVERVIEW

Proportioned for a woman rider, it sports a classic step-thru frame.

KEY FEATURES

- Light, strong 6061 aluminum frame features Novara's confidence-inspiring Best Foot Forward geometry, with a forward crank and slackened seat-tube angle
- RST suspension fork with 50mm of travel handles bumps and cuts fatigue
- SR Suntour crankset and 24-speed drivetrain offer reliable performance
- SRAM Grip Shift 3.0 twist shifters make gear changes simple
- 26" tires provide ample stability, Tektro linear-pull brakes; Alloy hi-rise handlebar; Velo Comfort saddle; eyelets for adding rear rack and fenders.

\$429

OUR NEW BEST FOOT FORWARD TECHNOLOGY We've moved the crank forward and slackened the angle of the seat tube, so riders can put their feet down easily without compromising pedaling efficiency.

The last time you rode a bike

was the day before you got your first car. As you cruise down the tree-lined seaside road, it all comes back to you—the freedom you had as a kid, being able to go beyond one block from home, meeting your friends at the corner store. It still feels good.

Women's ecoSensitive™ Rhumba Tank **\$39.50**

Smooth fitting and comfortable, this tank is made from a blend of recycled polyester and spandex to be kinder on the planet. Quick-drying, snag-resistant, UPF 50+ sun protection. Finished with floral design on front. Shelf bra. Increased length, slightly dropped tail. Two back pockets; one with secure zip closure; one open for easy access. Gathered mid section; relaxed fit; reflective accents.

Women's Rhumba Shorts **\$56.50**

Stay comfortable in the saddle with our lightweight shorts. The nylon/polyester stretch shell is snag- and pill-resistant; a polyester/spandex lining is quick to wick and fast to dry. Built-in chamois pad. Elastic grippers at hem. Fixed waistband with adjustable webbing; zip fly with snap closure. Side zip pockets.

BUZZ V

Priced for starving students and spec'ed for hardscrabble environs, this Buzz has a stout frame, burly tires and a dependable drivetrain. We also threw on fenders to keep the street crud off a rider's clothes.

KEY FEATURES

- Stout 4130 chromoly frame has mountain-bike geometry for a heads-up ride
- Chromoly pinpoint fork with tapered legs takes the edge off of rough patches
- SRAM 3.0 grip shift levers and X4 rear derailleur are tough yet smooth
- TruVativ crank and bottom bracket deliver solid performance, whether you're grinding a steep hill or drafting a bus; 24 speeds offer gears enough for both
- Tektro linear-pull brakes have dependable stopping power for busy streets
- Stout Weinmann XTB-26 rims; puncture-resistant Kenda Urban tires; BMX-style platform pedals fit casual shoes

\$449

The straight road from campus to Café Cyclops takes you past nine street lights that all turn green together every night at midnight. So you've heard, but you've never seen it because the alleys are more fun and you never ride home the same way. Ever. Another rule: Always sing loud when riding over cobblestones.

Men's ecoSensitive™ Marco Jersey **\$39.50**

Never leave style behind. Our short-sleeve Marco Jersey is made from recycled polyester in a pique knit, so it's kind to the planet while offering a world of comfort. The collar folds out for added sun protection. Zip back pocket; inside zip chest pocket. Finished with a button front, reflective trim, stitching accents and a Novara logo.

Men's Groove Shorts **\$56.50**

Fresh-looking shorts with a lightweight, durable blend of nylon/polyester/spandex in an ergonomic fit. The quick-drying polyester/spandex lining moves easily with you. Gusseted crotch. Liner with built-in chamois. Elastic-back waist with belt loops. Front pockets; back pockets with button closure.

TRANSFER

Loaded with commute-ready accessories, Transfer makes it easy to ditch the carbon spewer. Riders will love its fuss-free internal gearing and hub-powered front lighting. And once they taste fresh air, there's no turning back.

KEY FEATURES

- Sturdy chromoly frame can handle heavy loads and rough roads
- Shimano Nexus internally geared rear hub minimizes maintenance and provides 7 smooth-shifting gears
- 2.4W Basta headlight is powered by a hub dynamo in the front hub; battery-powered taillight provides rear visibility and is motion- and photo-sensitive
- Tektro linear-pull brakes and levers; bell in brake lever alerts cyclists and pedestrians
- Transfer includes a rack to mount panniers or a trunk bag (sold separately)
- Puncture-resistant 700x40c Vittoria Randonneur cross tires, reflective sidewalls

\$649

Are there really more rabbits

on the bike trail this summer?

Maybe it's because you only rode it weekends last year, and now you're riding it every day to work. A small rabbit looks kind of like a baked potato, you think. Or maybe like a loaf of bread.

ecoSensitive™ Commuter Rack Trunk **\$69.50**

Open the side zip panels on this small-profile bag and out come small panniers that expand to hold lots more. Made from 100% post-consumer recycled PET fabric that's tough enough for the daily commute and also kind to the planet. Features built-in raincovers, reflective detailing, inside mesh pockets to store small items and a clip loop for LED blinkers.

FLYBY SHUTTLE

When the trek from transit station to office is a long one, the perfect answer is a folder. Ride it anywhere, then fold 'n' stash. Ideal for trips to and from the carpool, the FlyBy Shuttle fits neatly into a condo closet or the storage bay on a commuter train.

KEY FEATURES

- Features a dependable and easy-to-use folding mechanism from Dahon, the undisputed leader in folding bike technology
- Folds/unfolds in less than a minute—handlebar folds in, pedals pop up, frame folds in half (a magnet holds it together) and the seatpost drops
- Internally geared hub keeps greasy chain marks off clothes, skin, cubicle walls and car interiors
- Nexus 7-speed drivetrain and twist shifters offer smooth gear changes
- Seatpost converts to a tire pump; Velo shuttle saddle with dual-density padding

\$699

They would never let you take your bike on the subway when you were a kid. Now you can carry a folding bike through the turnstile on your morning commute. At work, a good parking spot is supposed to be under a block away and under \$20 a day. Your parking spot is under your desk and free.

ecoSensitive™ Commuter Backpack **\$69.50**

Made of 100% post-consumer recycled PET fabric that's tough enough for the daily grind while also being kind to the planet. Our Commuter Backpack allows quick and easy access to items during your commute without exposing destination contents to weather. Padded panel protects your back from contents. Accommodates most hydration systems. Features a built-in raincover, reflective detailing, inside mesh pockets to store small items and a clip loop for LED blinkers.

MOUNTAIN

PONDEROSA 29er

With mondo tires to roll over logs, 80mm of travel and responsive gearing, this is the feet-down, plushest ride on the local washboard. The 29" wheels put tough terrain in its place.

KEY FEATURES

- Kinesis 6061 aluminum frame creates a lightweight, responsive foundation
- RockShox Dart 2 80mm fork with lock-out provides versatility and comfort
- SRAM X7 drivetrain: tough, light, crisp
- WTB Pure V Race saddle has an amazingly comfortable sit-bone platform
- Shimano disc hubs laced to WTB SX-28 rims shod with Kenda Nevegal SL 29" x 2.1" tires for rugged, tenacious traction
- Avid BB5 mechanical disc brakes and FR5 levers for easy maintenance and all-weather, precision stopping power

\$899

You almost don't make it.

You have errands, chores. Responsible Saturday stuff. Luckily, you also have friends who know how to separate you from a to-do list and get you to the mountains. Splashing through mud on a singletrack beats mowing a lawn anyway.

Men's Gravitron Jersey \$44.50

Lightweight and highly breathable, the mini-box knit of this jersey is paired with polyester double-pique knit below the arms for exceptional venting. Pill and snag resistant; UPF 25 sun protection. Full-zip front. In back, one secured zip pocket, one large pocket that's open for easy access. Droptail hem for extra coverage.

Men's ecoSensitive™ Exposure Dbl Shorts \$56.50

Designed for comfort on the move, these shorts feature a polyester/spandex blend lining and an ergonomic fit. The outer fabric is kind to the planet: lightweight recycled nylon that's pill resistant and quick drying. UPF 50+ sun protection. Elastic gripper at hems keep shorts from riding up. Gusseted crotch. Liner with built-in chamois. Two front pockets; thigh pocket with concealed zipper.

MOUNTAIN

PORTAL / PIKA

PORTAL OVERVIEW

For exploring the street, path or trail, this comfortable, upright ride will make any backyard bigger and make it easy to wander off the beaten path.

PIKA OVERVIEW

Same sweet specs as the Portal, with female-specific sizing.

KEY FEATURES

- Sturdy 6061 aluminum frame sports a comfy upright riding position
- RST Gila T8 suspension fork delivers 100mm of travel (Portal) / 80mm of travel (Pika) to smooth out bumps
- Tektro linear-pull brakes provide powerful off-road stopping power
- SRAM 3.0/X3 derailleurs
- Kenda K920 combo tires for a confident ride on pavement, gravel or dirt
- Portal: WTB Comfort V Comp saddle; Pika: WTB Leisure She Comp saddle

\$399

Your sister once told you that

it takes 100 million years for a piece of coal to become a diamond. Riding along the river first thing in the morning is when those kind of thoughts come back. There's a rhythm in the way the water moves, and it sounds like it has its own set of gears.

Women's Jam Jersey \$44.50

Ideal for breezing along a trail or through town, the Jam Jersey uses a polyester double-pique knit with mesh panels to maximize breathability. The lightweight fabric is also quick drying and snag resistant. UPF+25 sun protection. Half-zip front. In back: one secure zip pocket, two elasticized pockets that expand easily.

Women's Vibe Double Shorts \$56.50

A great companion for the Jam Jersey, the Vibe Shorts maximize comfort in town or on the trail. The nylon poplin fabric of the outer shorts is quick drying and pill resistant. Surf-style tie closure in front. The smooth polyester/spandex lining is breathable, fast wicking, and has a built-in chamois. Two front zip pockets.

ROAD

STRADA / CAREMA PRO

Strada straddles the racing/sport-touring line. Responsive enough to rocket to the front of a training pack and stable enough to load up and climb a mountain pass.

CAREMA PRO OVERVIEW

The pinnacle Novara ride for women roadies, with specs like the Strada.

KEY FEATURES

- Swift and light 6061 aluminum frame lets riders attack hills efficiently; sport geometry offers stability and comfort on long days
- Kinesis carbon fiber fork damps road vibrations, reducing fatigue
- Premium Shimano 105 derailleurs offer 30 speeds and integrated shifter/brake levers for shifting and braking control without taking hands off the bar
- FSA Vero triple crankset; fender-compatible Shimano long-reach brakes
- Strada: San Marco Ischia saddle has supportive contours and padding; Carema Pro: Padded San Marco Ischia women's saddle supports the sit bones

\$1,149

Everybody's heard about runner's high, but there's a place you can reach on your bike that doesn't have a name. Not yet, anyway. It's where that feeling of euphoria rolls in like a tide, lifting you off the pavement and washing you up on the shores of another world.

Men's Sprint Jersey **\$44.50**

The polyester jacquard knit provides a smooth fit and excellent breathability. Snag and pill resistant. UPF 30 sun protection. Full-zip front. Elastic at sleeve ends and bottom hem. Three back pockets for storage. Finished with Novara logos.

Men's Strada Road Shorts **\$54.50**

Made of nylon/spandex with 4-way stretch to ensure an excellent fit and easy movement. Snag and pill resistant, quick drying. Mesh side panels. Chamois with gel spots for comfort. Elastic grippers at hems to keep shorts from riding up. UPF 50+ sun protection. Reflective accents improve visibility.

ROAD

EXPRESS / EXPRESS XX

Novara's opening roadster act has a sport-road geometry and a flat bar for a comfortable trip. Built for the open road, with a lightweight carbon fork and 27-gear SRAM X7 drivetrain.

EXPRESS XX OVERVIEW

Female geometry and fit, with specs identical to the Express.

KEY FEATURES

- Kinesis 6061 aluminum frame is lightweight and strong
- Kinesis carbon fiber fork damps road vibrations, reducing fatigue
- FSA Vero triple crankset has lightweight and durable cold-forged aluminum arms;
- Ramped and pinned chainrings give crisp shifting and years of solid use
- Triple chainring with 27 speeds
- SRAM X7 derailleurs and X5 shifters
- Tektro linear-pull brakes; puncture-resistant Vittoria Randonneur tires

\$799

Women's ecoSensitive™

Clothing In designing these comfortable styles from a recycled polyester blend, we found the sweet spot for everything you want in serious cycling clothes. They're friendly to the planet, attractively priced, breathable, quick drying, snag resistant and fast wicking.

Women's ecoSensitive Forte Jersey \$39.50

Made from recycled polyester, the Forte Jersey is kind to the planet and kind to you on those day-long rides. Mesh panels transfer moisture quickly. Elastic gripper on hem holds the jersey in place. Secure zip pocket; two elasticized rear pockets allow easy access to cycling essentials. Reflective trim.

Women's ecoSensitive Mezzo Capris \$64.50

Built for long hours in the saddle, these capris have a yoga-inspired design with a recycled polyester/spandex blend that's kind to the planet. The stretch fabric allows freedom of movement and provides great support. A crossover waist front won't bind when you lean forward. Quick wicking, fast drying, and snag and pill resistant. Novara Women's Gel-spot chamois. Reflective trim.

KIDS

PULSE

Ideal for a small adult or pre-teen, this lightweight, nimble bike eats miles like candy. Smooth-riding and responsive, it might just inspire a lifetime of riding.

KEY FEATURES

- Nimble 6061 aluminum frame and chromoly fork are lightweight and stiff for efficient cycling and a lively feel
- FSA Tempo compact crankset allows for more efficient pedaling for smaller riders
- Shimano 2300 shifters provide quick, crisp shifts through 16 speeds
- Kalloy road handlebar and 26" wheels with quick-rolling Kenda tires add up to a fast road machine

\$499

AFTERBURNER

Perfect for little ones who are not quite ready for their own set of wheels, but are ready to hit the road. With its tool-free setup and versatile hitch, this trailer bike offers a smooth transitional ride for most everyone.

KEY FEATURES

- Tool-free, folding mechanism—unscrew the knob, fold the arm back on itself
- Sturdy hitch adapts to a wide range of seatpost diameters; attaches easily via bolts and a quick-release; accommodates kids of various sizes (3–6 years old, 80 lbs. max) by moving the seat and the handlebar to fit
- Detachable forward deflector (like a fender sans wheel) and a full-length chainguard protects kids from water and grime; bright orange safety flag on tall rod
- Measures approximately 53" folded and 74" unfolded

\$199
