Go ride your bike. Then go share the love.

Novara is all about sharing the love of biking. We build bikes for all types of riders, and we make gear and accessories that make you want to drop what you're doing, get on your bike and not look back.

In 2008, Novara and REI gave over a quarter of a million dollars to nearly 50 nonprofits that are bringing the love of biking to folks across the U.S. From providing seed money to support the creation of the Pacific Crest Bicycle Trail (stretching from the Canadian border to Mexico) to making bikes and safety gear available for kids biking to school in Davidson County, Tennesee, Novara and REI joyfully support these and other bike-centric efforts.

Wanna help? We've partnered with Volunteer Match to help you find the perfect way to share some bike love in your area. Go to www.rei.com/volunteer to find out more. Also, check out www.imba.com.

Novara bikes are sold exclusively at REI; visit us at www.novarabike.com.

Stocked with every convenience you could want, from a generator front light to fenders, pannier-ready racks and no-fuss drivetrains, our commuter bikes make it easy to join the fit and happy posse taking back the streets.

Ride with us!

Ryan Newhouse Missoula, MT

"This photo was taken November 1, 2007, the first day of my pledge to bike my 4-mile commute to 80% of my shifts at work during the winter. Of course it was also the first day of snow. I snapped this photo right after I arrived at work."

FUSION

Classy old-world style, meet fresh new-school performance. With a built-in rack and fast 700c wheels, the Fusion comes ready to haul all your stuff and get you to your next stop on time. A dash of European styling, a sleek yet comfy saddle and 8 internal gears makes this ride one sweet roll.

Frame: 6061 aluminum Fork: alloy Crankset: RPM City Single 40T with alloy guard Drivetrain: Shimano Alfine inter-8 Highlights: Tektro Aquila disc brakes; rear rack; fenders; bell; kickstand; hub-powered headlight; battery taillight; fast-comfort saddle; puncture-resistant 700 x 32c Vittoria Randonneur tires with reflective sidewalls; adjustable ATS stem.

The Transfer is your ticket to freedom. With built-in everything and 26" wheels for extra stability and cush, this dream machine turns everyday errands into reasons to go for another ride. No wonder the Transfer brought home *Bicycling* magazine's award for best commuter bike the last 2 years in a row.

Frame: 6061 aluminum Fork: chromoly Crankset: RPM City Single 38T with alloy guard Drivetrain: Shimano Nexus Inter-7 Highlights: Tektro linear pull brakes; rear rack; fenders; bell; kickstand; hub-powered headlight and battery-powered taillight; comfort saddle; puncture resistant 26 x 1.75" Vittoria Randonneur tires with reflective sidewalls; adjustable ATS stem.

When you start feeling the spaces between cars before they appear, you're ready for a machine that can change direction as fast as your nerves twitch.

Our urban bikes are quick and nimble, an extension of your need for speed and your finely honed traffic senses.

Like the gritty streets they're made to rule, Novara urban bikes are tough enough to tangle with potholes and come out on top.

"I commute to work on my 2005 Big Buzz. I was closing in on 10,000 miles on this bike, so I gathered up a group of coworkers to ride home with me and witness the day Big Buzz rolled past the 10k mark. We stopped for this group photo along the way."

BUZZ ROAD

Love the Buzz but need more speed? Done. The new 2009 Buzz Road is the newest steed in the stable, designed to rock your paved world.

With the same awesome features as the Big Buzz, the Buzz Road will go anywhere faster with its drop bar and STI shifters. Urban soldier or weekend warrior pounding pavement, dodging potholes and owning city streets: Consider yourself Buzzed and dangerous.

Frame: 6061 aluminum Fork: straight blade aluminum Drivetrain: Shimano Tiagra Brakes: Avid BB7 Road disc brakes for all-weather efficiency Crankset: FSA Gossamer Compact (54/30) Wheelset: Alex SC-3 disc with DT spokes Highlights: 700 x 32c Vittoria Randonneur tires are highly puncture resistant; WTB Dirt Drop bar offers a shallow drop and flared ends for many usable hand positions.

A lot like its cousin Buzz, only faster and built for longerrange rides. Smooth 700c tires help transform any stretch of pavement into your own personal speedway. Frame: 6061 aluminum Fork: alloy straight blade Crankset: Truvativ Elita Compact (50/34) Drivetrain: SRAM X-7 Highlights: Tektro Aquila disc brakes; Alex TD24 rims; Vittoria Randonneur 700x32c tires with reflective sidewalls.

BUZZ

Buzz is our quick-shifting, cab-dodging, pothole-rocking mean machine. It busts out of the gate with a strong, stiff Truvativ Power Spline crank/BB interface, a cool straight blade fork and a custom saddle. Buckle up and hang on.

Frame: 6061 aluminum Fork: chromoly straight blade Crankset: Truvativ 5D 38/28 with alloy bashguard Drivetrain: SRAM X-5/X-7 Highlights: Tektro IO disc brakes; Alex TD24 rims; Vittoria Randonneur 26x1.75 tires with reflective sidewalls.

BUZZ V

This do-anything utility bike is as tough and lean as the starving students who will love it. Pre-loaded with fenders and tenacious tires, it's good to go in any weather. It's happy on pavement and won't flinch when it hits a gravel path. The Buzz V brings killer specs in an affordable package. Buy more bike. Eat less ramen.

Frame: 4130 chromoly Fork: chromoly straight blade Crankset: Truvativ ISO-Flow 48/38/28 Drivetrain: SRAM 3.0 Highlights: Tektro forged linear pull brakes; Alex Ace 24 rims; Kenda K-841 tires with reflective sidewalls; full fender set.

FLYBY

\$4-per-gallon gas? Kick it to the curb for good with this rockin' folder. Besides being super portable, this little wonder is designed to the teeth: the seatpost turns into an efficient pump, the Nexus 8-speed internal hub means no greasy chain marks on your favorite chinos, and the Custom Buzz saddle keeps your seat comfy over the long haul. And, the included carrying bag lets you take it with you. Fast. Ride, fold, go. And start measuring your commute in smiles-per-mile instead.

Frame: Dahon P series Fork: Chromoly straight blade Crankset: Cold-forged 46T with chain guard Drivetrain: Nexus 8-speed internal hub Highlights: Included carrying bag; a seatpost that turns into a tire pump; full-wrap fenders.

You know who you are—ounces are things to be shaved (along with your legs), and your need for speed is surpassed only by your dream of a carbon-fiber frame suddenly appearing in your bike rack.

From the screamin' all-carbon Squadra to the comfy and speedy Express, our road bikes love to go the extra mile. Whether training for the Iron Man or just racing the clock on your commute, our nimble steeds deliver speed. And fun.

SQUADRA

With a full-carbon frame and fork, this featherweight menace was born to scorn (speed) limits. Every single piece of its anatomy is spec'd to kill, from the aggressive frame geometry to the SRAM Rival gruppo to the Vittoria Rubino Pro Slick tires. Ride a Squadra and see what your legs can really do on the open road.

Frame: C6 monocoque unidirectional carbon Fork: C6 monocoque carbon Crankset: FSA Gossamer Compact (50/34)

Drivetrain: SRAM Rival Highlights: FSA Gossamer wheelset; Vittoria Diamante Pro Slick 700x23 racing tires; FSA Wing

Compact alloy handlebar; San Marco Ponza saddle with "soft touch" cover; FSA stem and seatpost.

Avi Mahan Seattle, WA

Great teamwork by the Oberto/Redline team sends Avi Mahan off the front on his Novara Squadra for a solo win and a Washington State Criterium Championship.

STRADA STRADA STRADA

Love to just plain hammer for joy? Strada's for you. It comes with a carbon fork and seat stays on an ultralight, stiff, butted 6061 aluminum frame. Race it, tour it, use it for fitness or to stay ahead of the pack.

Frame: butted 6061 aluminum with carbon seatstays Fork: EVO carbon

Crankset: FSA Vero Triple Drivetrain: Shimano 105 Highlights: FSA cockpit;

Shimano R500 wheelset; Vittoria Zaffiro 700x25c tires; San Marco Ponza saddle.

Train on it. Ride it in a double century. Or just go for mellow rolls. Divano's frame geometry is designed to be kind to the spine, thanks to our Sport Geometry. Sweet specs for the price include an EVO carbon fork and an ATS stem that allows for quick and simple bar height adjustment.

Frame: 6061 aluminum Fork: EVO carbon Crankset: FSA Vero Triple
Drivetrain: Shimano Tiagra Highlights: Alex ALX 200 wheelset;
ATS adjustable stem; Ritchey Biomax handlebar; San Marco
Ischia saddle; Vittoria Zaffiro 700x25c tires.

EXPRESS

Designed for cyclists who want to prowl the pavement in comfort. A relaxed frame geometry and flat bar let you roll on from a more upright riding position. A lightweight carbon fork and easy-adjusting dual-pivot road brakes give you a versatile ride with speed to spare. Plus, it's rack- and fender-friendly in case you want to get your commute on.

Frame: 6061 Butted Aluminum Fork: EVO carbon fiber Crankset: FSA Vero triple Drivetrain: Shimano Tiagra/R440 Highlights: Alex ALX 200 wheelset; 700 x 28c Vittoria Randonneur touring tires; fender-compatible Tektro linear pull brakes; ATS stem for quick handlebar height adjustment.

Need easygoing wheels to meet friends for lunch or cruise to the farmer's market? Lookin' to roll to work in comfort and style? Check out the Forza, Corsa, Metro, Mia and Flirt. These comfy rigs deliver no-fuss riding that frees you up to listen to the birds, check out the surf or follow garage sale signs on a lazy Sunday morning. Better yet, hop on and turn your commute into a daily spin and grin.

No spandex required.

Lauren Berkowitz Chapel Hill, NC

"I rode with Team in Training® to prepare for my first century. Rode my Big Buzz through 100 miles of mountain climbs around Tahoe and Truckee, CA (with a broken toe even) to finish 'America's Most Beautiful Bike Ride.' It really was gorgeous."

A nimble bike that craves variety, this relaxed speedster is equally happy on the road or chauffeuring you around the campground. Its fast-comfort geometry and beefier tires take every surface in stride—the suspension fork eases gravel travel and locks out for serious speed.

Frame: 6061 aluminum Fork: RST suspension with lockout Crankset: Truvativ ISO-FLOW 48/38/28 Drivetrain: SRAM X-5 Highlights: All-terrain Kenda Eurotour tires; ATS adjustable stem; flat bar and bar ends for a more upright yet efficient ride.

Corsa offers the same creamy-smooth ride as the Metro, but it's outfitted with slimmer 700c wheels so you can pick up a bit more speed on the bike path. Relaxed geometry and a low-rise handlebar keep the riding position upright.

Frame: 6061 aluminum Fork: RST suspension Crankset: Truvativ ISO-Flow 48/38/28 Drivetrain: SRAM 24-speed with twist shifters Highlights: Kalloy angle adjustable stem; Post Moderne Suspension seat post reduces shock; Velo comfort saddle; bell and kickstand.

Running errands? Grab a smoothie en route without worrying about berry stains. Metro's plump 26" wheels roll super smooth, so there'll be no chance of juicy spillage on the way home. Otherwise, it's equipped with the same drivetrain and cockpit as the Corsa.

Frame: 6061 aluminum Fork: RST suspension Crankset: Truvativ ISO-Flow 48/38/28 Drivetrain: SRAM 24-speed with twist shifters Highlights: Kalloy angle adjustable stem; Post Moderne Suspension seat post reduces shock; Velo comfort saddle; bell and kickstand.

We introduced the first Novara women's road bike back in 1987. Fast-forward to 2009. We've poured everything learned over the past 20+ years into our Carema and Carema Pro models. We've sculpted their frame geometries to fit the female form and we've tricked them out with sweet components. The point? We don't cut any corners in our quest for women's comfort.

Daniel Jessee Austin, TX

"My fiance and I took a trip to Austin and brought Carema (that's the bike) along so she could go for a ride while I ran. As we passed the state house, I stuck my arm out of the window and snapped a picture. It just happened to come out perfectly!"

Kassidie Fraembs San Jose, CA

"My mother's girlfriend and I rode the Marin Headlands above the Golden Gate on a beautiful sunny day. The uphill is awesomely grueling and the downhill is amazingly fast! I highly recommend this ride to everyone."

Our seriously swanky women's road rocket. Upgraded for 2009 with butted 6061 tubing, this speedy number offers carbon seatstays and fork to dampen vibration, and a sizzlin' Shimano drivetrain with 10 speeds and smooth, crispy shifts. Don't blink.

Frame: Butted 6061 aluminum with carbon seatstays Fork: EVO carbon
Crankset: FSA Vero Triple Drivetrain: Shimano 105 Highlights: Shimano R500
wheelset; FSA cockpit; San Marco Ischia saddle contoured for women;
Vittoria Zaffiro 700x25c tires.

CAREMA

The Carema brings it: the same great women-specific fit as the Pro, plus a price that's real nice. Our super-comfy sport geometry keeps your ride nimble, and long-reach brakes allow wider tires and fenders for sweet versatility. Bejeweled with an EVO carbon fork and lots more componentry bling.

Frame: 6061 aluminum Fork: EVO carbon Crankset: FSA Vero Triple

Drivetrain: Shimano Tiagra Highlights: Alex ALX 200 wheelset;

ATS adjustable stem; Ritchey Biomax handlebar; San Marco Ischia saddle contoured for women; Vittoria Zaffiro 700x25c tires.

Need some speed but still want a kicked-back ride? The Mia sports 700c wheels to help get you where you're going quicker, but the step-through mounting, low stand-over height and relaxed cockpit keep it all chill.

Frame: 6061 aluminum Fork: RST suspension Crankset: SR XCT 48/38/28

Drivetrain: SRAM 24 speed with twist shifters Highlights: Suspension fork and seatpost; 700 x 40c tires with reflective sidewalls; women's comfort saddle with memory foam.

You'll ride upright, but never uptight, on this relaxed-fit cruiser. It looks old school but has the modern gumption and gear range to get you up hills, no sweat.

Frame: 6061 aluminum Fork: RST suspension Crankset: SR XCT (42/32/22)

Drivetrain: SRAM 24 speed with twist shifters Highlights: Suspension fork and seatpost; women's comfort saddle with memory foam; 26" x 1.95" combo tires with reflective sidewalls.

Itchin' to own the trail? Choose your machine, your landing and—for maximum fun—a few dirt-lovin' friends.

The 411: Hardtails are the original mountain bikes, but spec'd with the best modern parts (like we build 'em) a hardtail can still crush any trail on the mountain.

Full-suspension bikes?
They open up a new
world of insanity—you
can drop farther, knowing
that you'll touch down
with a smooth landing.

Trail's callin'.

Kenn Kirschman Las Vegas, NV

"This is a picture of my Method 2.0's maiden voyage. This picture was taken in the Cottonwood Valley, west of Las Vegas."

Gael Graysen Beaverton, OR

"Started biking when I was 44. You are never too old to start and I don't accept the excuse, 'I'm too old to ride that kind of bike.' Anything is possible! I love my Ponderosa and believe in Novara for durability, longevity and fun. This photo was taken on a very beautiful trail along Lake Tahoe. The first 4 miles are straight up!"

With this all-new trail marauder, you'll defy the tyranny of gravity and live to tell about it. Trail Link suspension platform with 120mm of travel and a halo of lightweight components make for nimble climbs and dreamlike descents. Own the trail and fly when you feel like it. The System will catch you.

Frame: 6061 aluminum Fork: RockShox Recon 351 air Rear shock: RockShox Monarch 3.1 air shock Crankset: Shimano SLX Drivetrain: Shimano SLX Highlights: Shimano SLX hydraulic disc brakes; Trail Link platform with 120mm/4.7" of front and rear travel that remains active during pedaling and braking and resists lockout; Mavic XM 317 rims; Kenda Nevegal tires.

Completely updated for 2009, the System gets you dialed in fast.

Our new Trail Link suspension platform and the same hyper-efficient frame as the System Pro (above) mean satisfaction is guaranteed.

Bonus: you get the full-suspension experience without bottoming out your bank account.

Frame: 6061 aluminum Fork: RockShox Tora 289 Rear shock: RockShox Ario air shock Crankset: Truvativ Fire X Drivetrain: SRAM X7 Highlights: Avid BB7 mechanical disc brakes; Trail Link platform with 120mm/4.7" of front and rear travel that remains active during pedaling and braking and resists lockout; WTB Speed disc rims and Kenda Nevegal tires.

Sometimes, less is more. Like when you decide not to save all the back issues of your favorite bike rag anymore: You toss them into the recycle bin, and suddenly you feel free.

Hardtails are like that. Take away the extra weight of a rear shock, and suddenly you're more nimble on the trails than your full-suspension buddies. You climb faster and get a tight, zippy ride on the way down.

And don't worry too much about the tree roots and washboard. That's what padded shorts are for.

Claire Poulin Chicago, IL

"I spent 42 days riding my bike across the country from Boston to Oregon on route 20, the oldest east-west highway. The last day was the hardest—we actually started screaming in disbelief and joy at the site of the Pacific. This photo shows my Safari resting at the finish on the beach in Newport, Oregon."

PONDEROSA 29

Need big-time traction? Our new bigfoot Pondo puts NASCAR-size rubber on the ground, so you stick to the trail going up, down or sideways. The mighty 29" wheels with WTB Prowler SL 29 x 2.1" tires give old trails a new feel. Good to go. Over anything.

Frame: Butted 6061 aluminum Fork: RockShox DART 3 with lockout

Crankset: Truvativ FireX 3.1 Drivetrain: SRAM X-7 Highlights: WTB Prowler

SL 29 x 2.1" tires and SpeedDisc All Mountain rims; Avid BB7 disc brakes
and FR5 levers; WTB Pure V Race saddle; Truvativ cockpit.

A.k.a. "Pondo." Our hardtail hero breaks the spirit of even the most ornery trails. Butted 6061 aluminum frame sports a sweet component set. Plus, the 100mm fork, SRAM drivetrain, Avid BB7 disc brakes and FR5 levers tame the most stubborn singletrack. Giddyup.

Frame: Butted 6061 aluminum Fork: RockShox DART 2 with lockout

Crankset: Truvativ FireX 3.1 Drivetrain: SRAM X-7 Highlights: Avid BB7 disc

brakes and FR5 levers; Kenda Nevegal 2.1" tires; WTB Pure V Race saddle;

Truvativ cockpit; Shimano disc hubs and WTB SpeedDisc rims.

The Bonanza's a hotshot hardtail that will make you want to stay out and play. It loves fear-inducing trails but shines on casual weekend rides, too. Cushy front suspension, disc brakes and SRAM X-5 drivetrain deliver a zippy ride for a sweet price.

Frame: 6061 aluminum Fork: RockShox Dart 1 Crankset: Truvativ Blaze

Drivetrain: SRAM X-5 Highlights: Tektro Aquila mechanical disc brakes;

WTB SX24 rims; WTB Moto Raptor tires; Truvativ cockpit.

It may be our entry-level mountain bike, but the Aspen's capable of blowing much more expensive posers right off the trail. Burly yet smooth-riding, just like a real mountain machine oughta be. And yeah, it rules curbs, too.

Frame: 6061 aluminum Fork: RST Gila T8 Crankset: Truvativ Isoflow
Drivetrain: Shimano Alivio Highlights: Tektro IO disc brakes; Alex TD24
rims; WTB Moto Raptor tires; WTB Speed V saddle.

At Novara, we build women's bikes that are based on real women. From every aspect of frame geometry to shorter cranks and stems, our women's bikes are made to comfortably fit the length of your legs, torso and arms.

You'll feel a difference in comfort and confidence from the very first ride.

BLISS

Know that saying, "Follow your bliss"? Do it. Find your trail and become one with this sweet ride. The plush TrueLink suspension platform will carry you over the fiercest obstacles, while the SRAM X-7/X-9 drivetrain arms you with on-the-fly, precise shifting that's as dependable as the sun. Go ahead, ride. With this speedy steed, everybody else on the trail will have no choice but to follow your bliss.

Frame: 6061 aluminum Fork: RockShox Tora 302 Rear shock: RockShox Bar 2.1 Crankset: Truvativ Fire-X 3.1 Drivetrain: SRAM X-7 with X-9 rear derailleur Highlights: Kenda Nevegal 2.1 tires; Shimano disc hubs; WTB SpeedDisc rims; Avid BB7 mechanical disc brakes; Truvativ cockpit; WTB Speed She saddle.

Get jiggy with it. Race-worthy components and performance set you up to pound the singletrack in style. The Bonita sports a smooth-shifting SRAM 27-speed drivetrain and RockShox Dart 1 100mm fork to make it all look easy.

Frame: 6061 aluminum Fork: RockShox Dart 1 Crankset: Truvativ Blaze

Drivetrain: SRAM X-5 (27 speeds) Highlights: Tektro Aquila mechanical disc

brakes; WTB SX24 rims; WTB Moto Raptor tires; WTB Speed She saddle.

Score the comfort of a women-specific mountain bike at an entry-level price. Piedra kicks it with a female-friendly fit and a solid build to endure years of hard riding on rough terrain.

Frame: 6061 aluminum Fork: RST Gila T8 Crankset: Truvativ Isoflow

Drivetrain: Shimano Alivio (27 speeds) Highlights: Tektro I0 mechanical
disc brakes; Alex TD24 rims; WTB Moto Raptor tires; WTB Speed She saddle.

Our touring machines let you roll over endless highways or forgotten dirt track way out back until you satisfy your soul.

Ready, set, ommmmmm.

SAFARI

The Safari's a mountain steed that's beefed up for the long, long haul. Handles well under heavy loads, and it's practically indestructible. For even more versatility, the 2 largest sizes (L and XL) are 700c (29" tire compatible) for wild rides across the continent or through your local urban jungle. Take on the wilderness, in town or out.

Frame: 6061 aluminum Fork: Chromoly Crankset: Truvativ FireX 3.1

Drivetrain: Shimano Deore/SLX 9-speed Highlights: Shimano M416 disc brakes, Alex DP-17 rims, ATS adjustable stem; Vittoria Randonneur tires (26" for sizes S and M; 700c for sizes L and XL); WTB Pure V saddle.

Upgraded with the latest technology, this remains one tough touring machine that's an original Novara at heart. A Reynolds steel-framed road warrior with a wide range of gears. Ready to go wherever you want, for as long as you want. Pack. Pedal. Explore.

Frame: Reynolds 520 double-butted chromoly Fork: Chromoly Crankset:
Shimano Deore Touring Drivetrain: Shimano LX/Tiagra 9-speed Highlights:
Vittoria Randonneur 700x32c puncture-resistant tires; Mavic A319S rims;
Ritchey BioMax handlebar; Tektro cantilever brakes.

From tiny bikes with training wheels to a road bike that's dialed in with everything you'd expect on an adult's road bike, our kids' bikes are pure fun. And built to stand up to the abuse kids dole out.

Get your little ripper started on a safe, solid bike, and they'll be stoked for a lifetime of riding.

UJ Cha Seattle, WA

"Oscar loves to ride his Novara Stinger bike with the training wheels. He likes to go super fast down hills and turns. He's a little daredevil, but scared to take off the training wheels . . . maybe this summer!"

PONDEROSA 24

Built both tough and light, the Pondo is one sweet ride for the growing mtb'er. A double-butted aluminum frame, 21 gears and a light and reactive suspension fork deliver happy trails every time.

Frame: 6061 butted aluminum Fork: Spinner Grind 1 SL with alloy steerer tube Crankset: Alloy 44/32/22 Drivetrain: SRAM 3.0 7-speed Highlights: Alloy micro-adjustable seatpost; alloy riser handlebar; Velo Junior saddle; Tektro linear pull brakes; Kenda small block 24x1.95 tires.

This sleek beauty will inspire the need for speed in young riders and smaller adults alike. It sports a light 6061 aluminum frame, a chromoly fork and a nimble design that'll burn right through the finish line. Ready, set, go!

Frame: 6061 aluminum Fork: Chromoly Crankset: FSA Vero compact 50/34

Drivetrain: Shimano 2200, 8-speed Highlights: Kalloy road handlebar; Alex

DA-16 rims; Kenda Kwik Roller 26x1.25 tires; Velo Junior racing saddle;

Tektro Oryx cantilever brakes.

TRACTOR 24

A suspension fork and 21 easy-shifting gears help kids handle any terrain.

PIXIE 20 6 SPEED

A suspension fork smooths out the ride while 6 gears allow easy climbs and acceleration.

PIXIE 20 SINGLE SPEED

Features both hand brakes and coaster brake for the developing rider.

MOXIE 24

Frame: 6061 aluminum Fork: Spinner Grind Crankset: Alloy 42/34/24

Drivetrain: Shimano 7-speed Highlights: Tektro linear pull brakes; rear moto fender; front down tube deflector; Velo Jr. saddle; aluminum rims; Kenda K-831 tires; Shimano twist shifters.

DUSTER 20 6 SPEED

Frame: 6061 aluminum Fork: Spinner Grind Crankset: 1-piece with 40T ring
Drivetrain: Shimano 6-speed Highlights: Tektro linear pull brakes; rear moto
fender; front down tube deflector; Velo Jr. saddle; aluminum rims; Kenda
K-831 tires; Shimano twist shifters.

DUSTER 20 SINGLE SPEED

Frame: Steel Fork: steel unicrown Crankset: 1-piece with 40T ring and double guards Highlights: Tektro linear pull brakes; rear moto fender; front down tube deflector; Velo Jr. saddle, aluminum rims; Kenda K-831 tires.

STINGER 16

Single-speed drivetrain and coaster brake create a simple, zippy ride.

Coaster brake, a built-in chain guard and removable training wheels let kids ride with confidence while they get used to the road.

AFTERBURNER

A great way for kids to get comfortable riding without training wheels. The hitch attaches with a sturdy quick-release, and goes from bike to bike easily. Adjustable cockpit fits kids of different sizes (80 lbs. maximum). Folds up fast—without tools—to pack in your car trunk.

Frame: Steel Fork: steel unicrown Crankset: 1-piece with 32T ring and chainguard Highlights: Removable training wheels; rear coaster brake; moto fenders; Velo Jr. saddle; steel rims; Kenda K-50 tires.

Frame: Steel Fork: steel unicrown Crankset: 1-piece with 28T ring and chainguard Highlights: Rear coaster brake; moto fenders with number plate (boys), streamers and handlebar bag (girls); Velo Jr. saddle; Kenda K-50 tires.

A good ride starts with a well-built bike. A great ride ensures you stay dry and warm. It also means you have a place for that fresh loaf of bread and bag of juicy cherries you picked up at the market. Oh yeah, and the laptop you tote to work.

Here at Novara, our goal is to keep you happy on your bike. We've got bags to haul your treasure and clothes with all-weather comfort skills to make sure that every ride is a great one.

You ride your bike because it's fun.

But there's another great reason to ride: It's an easy way to live a little greener every day. In that spirit, we've created our EcoSensitive™ Novara line of gear and apparel.

These products are made from natural and recycled materials that go easy on the environment.

So props for doing your part for the planet. If you want to step it up a notch, check out our EcoSensitive offerings. You'll be glad you did. So will Mother Earth.

How to size your Novara bike

- With shoes on, measure from your crotch to the floor.
 This gives you your inseam length.
- 2. Find the stand-over height (A) on the Novara geometry chart above.
- For mountain, touring, urban and comfort bikes, the difference between your inseam length and the stand-over height should be around 2"; for road bikes, this difference should be around 1".
- If you're between sizes, select a larger frame if you prefer a more comfortable upright riding style; select a smaller frame if you prefer a lower, more aerodynamic riding style.

- A. Stand-over height (see left)
- B. Seat tube, center-to-center
- C. Top tube
- E. Front center
- F. Wheelbase
- G. Offset
- H. Seat tube, center-to-top
- I. Head tube angle D. Rear center
 - J. Seat tube angle
